

TABLE—continued.

NAMES OF GENERA.	Genera which are found					Number of Species.		OBSERVATIONS.
	In a Living State only.	Living and Fossil.	In a Fossil State only.	In the Strata anterior to the Chalk.	In the Strata of the Chalk.	In the Strata posterior to the Chalk.	In the Living State.	
MAMMIFERA.								
Tapirus, - - -	•					•	1	
Elasmotherium, -			•			•	1	
Equus, - - -	•					•	1	
Mus, - - -	•					•	1	
Cervus, - - -	•					•	5	
Bos, - - -	•					•	4	
Myoxus, - - -	•					•	2	
CETACEA.								
Manatus, - - -	•					•	1	It is extremely difficult to make out the genera of the Birds, whose remains occur in a fossil state, and there are more of them than those mentioned.
Delphinus, - - -	•					•	4	
Balæna, - - -	•					•	3	
AVES.								
Sturnus, - - -	•					•	1	
Pelecanus, - - -	•					•	1	
Charadrius, - - -						•	1	
REPTILIA.								
Testudo, - - -	•					•	6	
Crocodylus, - - -	•				•		6	
Plesiosaurus, - - -			•				1	
Ichthyosaurus, - - -			•	•			4	
Pterodactylus, - - -			•	•			3	
Rana, - - -	•					•	1	
Mosasaurus, - - -			•				1	
Salamandra, - - -	•				•		1
