

I have selected a few spines of different species of the Turban Echinites, or Cidarites, to serve as objects of comparison; they are figured in *Lign. 78.*

LIGN. 78.

FOSSIL SPINES OF CIDARITES.

Fig. 1.—Spine of *ACROCIDARIS nobilis* (*Agassiz*).

- 2.— *CIDARIS cucumifera*.
- 3.— *stemmacantha*.
- 4.— *meandrina*.
- 5.— *spinosa*.
- 6.— *clunifera*.
- 7.— *cretosa*.
- 8.— *Parkinsoni*.
- 9.— *sceptrifera*.

GALERITES (*cap-shaped Echinate*) CRETOSUS.

Lign. 79.—The Galerites are only known in a
