

wavy description. They are said by the foreigners often to produce the sensation of sea-sickness.

On the 10th of November, the whole squadron was assembled in the harbour of Apia, after having been actively engaged since the 8th of October in examining the different islands, and making surveys of their coasts and harbours, &c. This work was all expeditiously and well done, with the exception of the south side of the island of Upolu, which was imperfect in some respects; it was consequently re-surveyed in the following year, and the charts finished. Besides the surveys, full series of experiments were made in magnetism, and extensive collections obtained in natural history, botany, &c., the islands being traversed by parties in several directions for this purpose. For the results in these departments, the reader is referred to the Reports of the Naturalists; and to the Hydrographic Atlas, for the charts.

FAN, BASKET, NECKLACE, COMB, ETC.
