

- Ganges, quantity of sediment in waters of, 266.
 — and Burrampooter not yet completely united, 272.
 —, islands formed by the, 264.
 —, bones of men found in delta of, 734.
 Gardner on destruction of Dunwich by the sea, 297.
 —, Mr., cited, 100. 110. 125.
 Gases, liquefaction of, 538.
 — evolved by volcanos, 530.
 Gefle, upraised shelly deposit near, 505. 507.
 Gemmellaro on Etna, 392.
 — on ice under lava, 396.
 Generation, spontaneous, theory of, 24.
 Generelli, on state of geology in Europe in middle of 18th century, 37.
 — on effects of earthquakes in recent times, 39. 55.
 Geneva, lake of, men drowned above Martigny floated into, 200.
 —, delta of Rhone in, 183. 254. 273.
 Geognosy of Werner, 48.
 Geographical distribution of plants, 591.
 — of animals, 607.
 — of birds, 620.
 — of reptiles, 622.
 — of fishes, 624.
 — of testacea, 626.
 — of zoophytes, 631.
 — of insects, 633.
 — of man, 635.
 Geography, proofs of former changes in physical, 113. 121.
 —, effect of changes in, on species, 637.
 Geological Society of London, 61.
 — theories, causes of error in, 63.
 Geology defined, 1.
 —, compared to history, 1.
 —, its relation to other physical sciences, 2.
 —, distinct from cosmogony, 3.
 —, considered by Werner as part of mineralogy, 3.
 —, causes of its retardation, 26. 57. 63.
 —, state of, in Europe, before middle of last century, 38.
 —, modern progress of, 60.
 Georgia, in island of, perpetual snow to level of sea, 99. 109.
 Gerbanites, an Arabian sect, their doctrines, 16.
 German Ocean, filling up, 326.
 Gesner, John, on organic remains, 42.
 Geysers of Iceland, 533.
 —, cause of their intermittent action, 534.
 Ghauts of Malabar, assigned date of, 165.
 Giacomo, St., valley of, described, 386. 389.
 Gibraltar, birds' bones in breccia at, 717.
 —, Straits of, 320.
 —, supposed under-current in, 321.
 Gironde, tides in its estuary, 325.
 Glacial epoch, 77.
 — deposits of Europe, 84.
 Glacier, under lava, on Etna, 396.
 Glaciers, formation of, 87. 224.
 —, motion of, 225.
 —, limits of, 223.
 —, rocks grooved and polished by, 152.
 —, Swiss, length of, 225.
 —, of Spitzbergen, 97.
 —, transportation of rocks by, 151.
 Glen Tilt, granite veins of, 53.
 Gloucestershire, gain of land in, 311.
 Gmelin on distribution of fish, 626.
 Goats, multiplication of, in South America, 663.
 Goeppert, Prof., 88.
 —, on fossilization of plants, 724.
 Golden age, doctrine whence derived, 10.
 Goodwin Sands, 302.
 Goree on new island, 427.
 Gothenburg, rise of land near, 505.
 Graah, Capt., on subsidence of Greenland, 509.
 Graham, Mrs., on earthquake of Chili in 1822, 439.
 Graham Island, 416.
 —, views of, *see wood-cuts*, 416. 417.
 —, depth of sea from which it rose, 416.
 —, arrangement of the ejected materials on, 418. 419.
 —, supposed section of, 419.
 Granite of the Hartz, greywacké slate with organic remains found in, 49.
 —, disintegration of, 223. 332.
 —, formed at different periods, 171.
 —, origin of, 170.
 Granite veins observed by Hutton in Glen Tilt, 53.
 Grant, Capt., on fort of Sindree and Ullah Bund, 443. 444.
 Graves, Capt., on diffusion of insects by the wind, 634.
 —, survey of Santorin by, 425.
 Graves, Mr., on distribution of the bustard, 660.
 Gray, Mr., on *Mytilus polymorphus*, 630.
 Grays, tertiary strata of, 78.
 Grecian Archipelago, new isles of the, 45.
 —, volcanos of the, 340. 422.
 —, chart and section of, 426.
 Greece, earthquakes in, 340.
 —, traditions of deluges in, 341.
 Greenland, why colder than Lapland, 95.
 —, gradual subsidence of, 509. 540.
 —, timber drifted to shores of, 721.
 Greville, Dr., on drift sea-weed, 601.
 Groins described, 306.
 Grooves in rocks formed by glaciers, 152. 228. 229.
 Grotto del Cane, 250.
 Ground ice, 224.
 — transporting rocks in Baltic, 232.
 Guadeloupe, human skeletons of, 734.
 Guatemala, active volcanos in, 335.
 Guiana, its maritime district formed by sediment of the Amazon, 328.
 Guilding, Rev. L., on migration of Boa Constrictor, 624.
 Guinea current, 280.
 Guinea, New, mammalia of, 610.
 Gulf stream, 96. 279. 281. 599.
 — stream, warmth of its water brings tropical fish to temperate zone, 625.
 Gun-barrel, with shells attached, found in sands, 737.
 Gyrogonite, described, 742.
- ## H.
- Habitations of plants described, 592.
 Hales, Dr., on epoch of the creation, 637.
 Hall, Sir J., his experiments on rocks, 53.
 Hall, Captain B., on flood in valley of Bagnes, 199.
 —, on the trade winds, 283.
 —, on temple of Serapis, 492.
 Hall, Mr., State Geologist of New York, 205.
 Hall, Mr. J., on temple of Serapis, 493.
 Hamilton, Mr. W. J., on cones of scoræ in valleys of Hermus, 340.
 Hamilton, Sir W., on mass covering Herculaneum, 373.
 —, on earthquake of 1783, in Calabria, 454. 465. 466.
 —, on formation of Monte Nuovo, 352.
 —, on eruption of Vesuvius in 1779, 361.
 Hamilton, Sir Charles, on submerged buildings of Port Royal, 486.
 Hampshire, Brander on fossils of, 46.
 —, submarine forest on coast of, 722.
 Harcourt, Rev. W. V. V., on bones of mammoth, &c. in Yorkshire, 78.
 Harris, Hon. C., on sunk vessel off Poole harbour, 735.
 —, on a submarine forest on coast of Hampshire, 722.
