

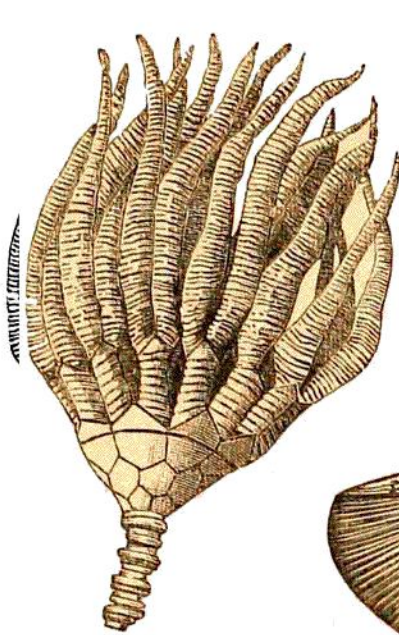

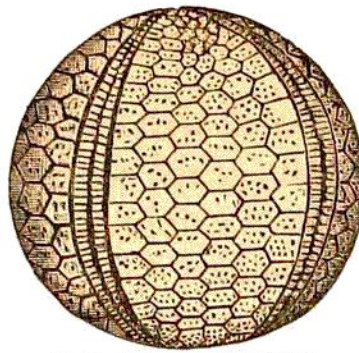

FIG. 28.

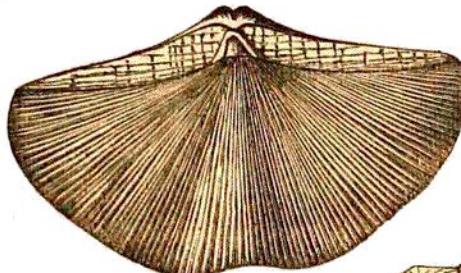

Woodocrinus
macrodactylus.

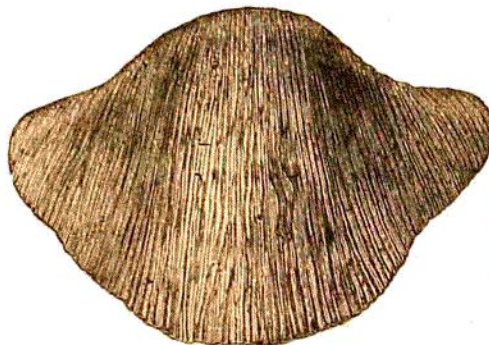

Palæchinus sphæricus.

Amplexus
coralloides.

Spirifera striata.

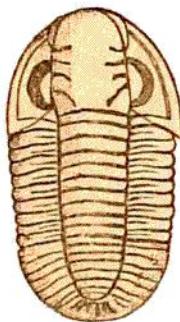

Productus giganteus.

Terebratula
hastata.

Lithostrotion basaltiforme.

Phillipsii
Derbiensis.

Aviculopecten
sublobatus.

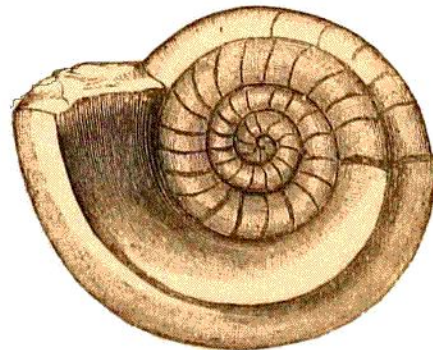

Pleurorhynchus minax.

Gomatites sphæricus.

Euomphalus pentangulatus.

Nautilus biangulatus.

Group of Carboniferous Limestone Fossils.
