

Fig.	Page
35 Longitudinal section of the root of ditto, (id.)	96
36 Capsule of bulb of ditto laid open, (id.)	96
37 Muscle in a state of relaxation	101
38 The same muscle contracted	101
39 Diagram illustrating the action of oblique muscles	101
40 Semi-penniform muscle	101
41 Penniform muscle	101
42 Complex muscle	101
43 Tendon of muscle	101
44 Trapezius muscle	101
45 Muscular Structure of the Ear-drum, (Home)	105
46 Orbicular muscle of the Eye-lids, (Albinus)	105
47 Muscular structure of the Iris, (Home)	105
48 Muscular fibres of a sucking disk	105
49 Longitudinal muscular fibres of a blood vessel	106
50 Transverse muscular fibres of ditto	106
51 Muscular fibres of the human stomach, (Cooper)	106
52 Muscular fibres of the heart, (id.)	106
53 Magnified view of a <i>Sponge</i> , (Grant)	114
54 Spicula in the texture of a <i>Sponge</i> , (id.)	114
55 Gemmule of a <i>Sponge</i> , (id.)	114
56 <i>Lobularia. Alcyonium pelagica</i> , (Deterville)	122
57 Detached polype of ditto, (id.)	122
58 <i>Zoanthus</i> , (<i>Actinia sociata</i>), (Ellis)	122
59 <i>Hydra viridis</i> , (Trembley)	122
60 <i>Sertularia pelagica</i> , (Deterville)	124
61 <i>Tubipora musica</i> , (Ellis)	125
62 Section and polypes of ditto, magnified, (id.)	125
63 <i>Flustra carbacea</i> , (id.)	125
64 Cells of ditto, magnified, (id.)	125
65 <i>Corallium rubrum</i> , (id.)	125
66 Polypes of ditto, magnified, (id.)	125
67 Section of <i>Gorgonia Briareus</i> , (id.)	125
68 <i>Isis hippuris</i> , (id.)	125
69 Polype of <i>Flustracarusca</i> , (Grant)	129
70 Tentaculum of ditto, magnified, (id.)	129
71 <i>Pennatula phosphorea</i> , (Ellis)	131
72 Magnified view of the polypes of ditto, (id.)	131
73 to 76 mode of progression of the <i>Hydra viridis</i> , (Trembley)	133
77 <i>Vorticella cyathina</i> , (Muller)	136
78 <i>Proteus diffuens</i> , (id.)	139
79 <i>Volvox globator</i> , (id.)	139
80 <i>Brachionus urceolaris</i> , (id.)	140
